## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Bradley Groff on 8/21/06. The application has been amended as follows: Currently Amended Claim 70 has been amended to delete lines 5-6 except the word "and".

Potential obvious type double patenting was discussed. In response, attorney filed a terminal disclaimer, which has been approved by a paralegal.

### ***Allowable Subject Matter***

Claims 70-75, 77-82, 85-88 and 91-96 are allowed. The following is an examiner's statement of reasons for allowance:

The prior art alone or in combination fails to teach a lancet cartridge comprising a plurality of lancets, each lancet comprising a protective cap, a carrier retaining the lancets in a plane defining a path of travel, wherein the protective cap of each lancet comprises a groove or pair of recesses on opposed sides thereof, and wherein the carrier comprises a guide member engaged in each of said recesses to constrain the protective cap to motion along a path out of said plane or a spring biasing the caps out

of the plane defining a path of travel, wherein each spring comprises a loop having a pair of legs and a cross-member extending between the legs, said cross-member engaging the protective cap of each lancet

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Terminal Disclaimer***

The terminal disclaimer filed on 8/22/06 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of application serial # 10/505352 has been reviewed and is accepted. The terminal disclaimer has been recorded. As such the provisional obvious-type patenting rejection is overcome.
